SINCE 1920
HANDMADE IN ITALY

Bertozzi, linens that tell stories.

Since 1920 we had produced in our workshop in Italy, using artisan carved blocks of pear wood, beaten with a mallet by hand.

The long standing knowledge and the practical experience has continued in the family for three generations and so the memories of the loved people enhanced the job of the hands.

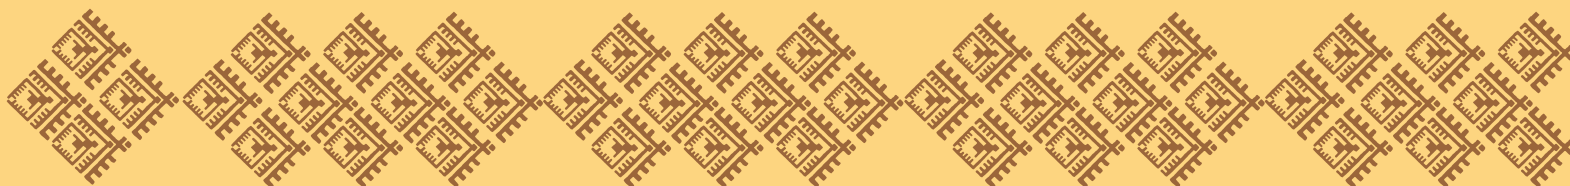

In this way each product and each pattern of ours tells a story.

Today as in the last one hundred years, Bertozzi linens are artisan made in Italy and perpetuate daily stories and good craftsmanship.
